

BLUM

"Take me on the journey, we just turn the world quietly."

Blum are four geographic homeless people, who merge their musical influences in search of freedom into poetic indie rock. Between yearning and departure, melancholic feelings are combined with the urge for movement. The lyrics are thoughtful but light, sad and euphoric at the same time. They are packed in tunes that stay in the head. Often for days.

Those who have seen the band live know their energy. The guys have fun on stage and build a bridge to the audience, whether in the smoky cellar club or on the busy festival meadow. Whoever keeps quiet and standing still in spite of these fresh hooks and numerous sing-a-long parts has only him- or herself to blame.
